

The Herbalist's Herbal DETOX Kit

The *Original* Ultimate Cleanse

The Herbal Detox Kit has been inspired by Dr. Bernard Jensen's "Ultimate Tissue Cleansing Program" and Dr. Richard Anderson's "Cleanse and Purify Thyself". This has been combined with traditional American Indian teachings to give you a safe and effective, completely herbal, internal body cleanse. *The illustrated instruction book, included with this Herbal Detox Kit, leads you simply, step by step through an easy programme. It guides you through a preparation stage of several days during which you avoid certain proteins, grains and refined foods. Then just continue, following delicious recipe and food options during the capsule-taking stage of the cleanse.* Over 10 days the herbs should clear your intestines of fecal matter, and cleanse and stimulate your liver and your kidneys. **Nothing else** on the market will do what **The Herbal Detox Kit** does.

WHY do you change the oil in your vehicle regularly? To keep it clear, clean and running smoothly. Your intestines are also a site of combustion and residue. With our modern diets, residue may build up very quickly. Bread and refined foods are the major cause. Meats, cheese, fries and sweets also congest the system. Over time, sticky plaque begins to line our intestine. This lays the foundation for some of our most common serious health problems. Colon cancer is the third most common form of cancer, and studies have shown that other forms of cancer can house intestinal parasites at the tumour site. Studies also show that there is a connection between poor intestinal hygiene and virtually all cancers. We maintain that intestinal health is the platform for all healing.

RESULTS: Your intestines represent a huge surface area where you absorb your food. No wonder this kind of cleanse gives you great results. Apart from the possibilities of large increases in energy levels, your metabolism may speed up in general. Allergies may decrease and digestion may improve. Bowel motility should increase. Transit time decreases. Toxic problems such as skin disorders, bowel problems, mucus congestion, fatigue, headaches (particularly migraines), arthritis, acne, obesity, addictions and asthma may all be reduced. Emotional issues may also be addressed when going through this programme. Your intestine is an emotional organ and it often connects food with emotional needs. Clarity of mind is often one of the most profound results of the Herbal Detox Kit. It is well worth it, TRY IT NOW.

Directions for use.
If taking prescription drugs, consult your doctor before use. Do not use during pregnancy or lactation. Do not use if security seal is broken. Keep out of reach of children. Store away from direct sunlight and heat. No claim to treat or cure any health condition is made.
